

As Head of Sixth Form I am immensely proud of the students and everyone who worked so hard to make so many of their dreams a reality. There are so many highlights to choose from but in many ways, what has made us most proud is how the majority of the students will be the first in their families to go onto higher education – this is exactly the type of achievement that so many of us went into the profession to see. With only a handful of students not securing their first choice we now know that despite the incredibly testing present the future is once again so bright for the Sixth Form students of St Mark's.
